DESIGN

The creatively designed saddle stool L1 is a unique stool that is a sister of our L3 saddle stool. It has a smaller saddle than the L3 saddle stool that we made for people that want to sit on a smaller saddle stool. The L1 had a one piece wooden core filed with 6 cm of the best HR foam available in the market. The chair can be made fully customizable to the needs of our customers. The hardness of the foam, a black aluminum or polished aluminum base. Even an orange color base if that's what you want.

Back support

A close-up photograph of a black leather chair backrest. The leather has a fine, pebbled texture. A prominent orange-colored double-stitch line runs along the top edge of the backrest. On the lower part of the backrest, there is a circular, recessed adjustment knob. The chair is set against a plain white background.

BACK SUPPORT

True comfort is the absence of awareness.
When a chair is a perfect fit for your body,
it becomes 'invisible' and you're not aware
of it at all.
